PROFESSIONAL SUMMARY

Aspiring Data / Business Analyst with a Graduate Diploma in Business Analytics (Singapore Institute of Management) — Power BI, Tableau, SQL, Python, R, predictive modelling, and statistics. Brings 6+ years of experience translating regulatory requirements and into actionable recommendations and communicating with both technical and non-technical audiences. Seeking to apply analytical training and a strong reporting background to a Data / Business Analyst role.

TECHNICAL & ANALYTICAL SKILLS

Business Intelligence & Visualization: Power BI, Tableau, Excel (PivotTables, VLOOKUP, dashboards)

Databases & Querying: SQL

Programming: Python (Pandas, NumPy), R

Analytics Methods: Predictive Modelling, Data Mining, Statistical Analysis (Descriptive & Inferential)

Business Analysis: Requirements gathering, process mapping, stakeholder & case reporting, executive presentations (PowerPoint)

PROJECTS & PORTFOLIO

- **[Project 1 Title]** — Built a Power BI / Tableau dashboard analyzing [dataset] to answer [business question]; surfaced [key insight, e.g. which segment or region drove sales]. *Tools: Power BI, SQL.*
- **[Project 2 Title]** — Used SQL and Python to clean and analyze [dataset], identifying [pattern / insight] that could inform [decision]. *Tools: SQL, Python, Tableau.*

PROFESSIONAL EXPERIENCE

Coordinator | *Center for Domestic Employees (CDE), NTUC — Singapore*

Aug 2023 – Present

- Serve as a key liaison between employers, domestic workers, and internal teams, ensuring reporting, processes, and communications align with MOM compliance requirements.
- Interpret MOM regulations against case data to identify patterns of non-compliance and escalate issues to the relevant teams.
- Conduct structured interviews with migrant domestic workers to collect case, welfare, and compliance data, ensuring accuracy and consistency for downstream reporting.
- Compile and organize interview and case data into structured reports and summaries used by management to track trends and inform decisions.
- Manage and review high-volume inquiry data (email and phone) to identify recurring issues and streamline response processes.

Operations & Administrative Associate | *Social Security Board — Myanmar*

Apr 2021 – Jun 2023

- Compiled and validated manpower and claims data into structured reports for internal and external stakeholders, supporting operational decisions.
- Analyzed insurance claim data and policy updates to deliver accurate, consistent guidance to employers, workers, and hospital teams.
- Improved reporting accuracy by standardizing data collection formats and workflows across departments.
- Collaborated with hospital administrators and government units to align data reporting standards and service delivery.

Sales Operations Coordinator | *Linn IT & Mobile Service Pte — Myanmar*

Dec 2018 – Mar 2021

- Prepared and analyzed sales data to support quotations, proposals, and tender documentation.
- Tracked product and customer inquiry data to identify trends and inform sales and operations planning.
- Coordinated data flow between sales, operations, and technical teams to ensure accuracy and timeliness of shared information.
